

The propagation of Pkmn HOF

Written by Hall of Famer

Saturday, 07 July 2007 04:54 - Last Updated Tuesday, 22 September 2009 17:56

The founder Hall of Famer has been constantly updating the game pkmn HOF since the first revision of Kanto region was made available to play in May, 2008. Since then, three more versions have been released to the public. We have two game threads at pokecommunity and rmxp.org, in which users frequently check out our game and leave feedback to what they have seen from the gameplay. If you like this game and wish it to be popular, then you are encouraged to post and propagate the project Pkmn HOF in either of the two game threads. I'd appreciate it very much if people leave comments or constructive criticism on my game.
