Have you ever wanted to play a Pokémon game that encompasses everything you love about Pokémon and the Pokémon universe? What if there was such a game? And it was being made right now!?

Pokémon Hall of Fame is the brainchild of several Pokémon fans with only one goal in mind: to create the ultimate Pokémon gaming experience. The project will follow the story of Ash, the protagonist from Kanto, Pallet town to follow his dream of becoming the champion and Pokemon master. Ash will begin his journey in Kanto, where he will have to college badges, battle against trainers, evil organizations and eventually reach Indigo Conference. The tour of Orange Islands starts after he wins the champ of Kanto League and explore an unknown region to the south of Kanto. Pokemon HOF will include elements from existing Video games, Anime and Manga, but also with its own features.

This game is made with RPG Maker XP and Pokémon Essentials.
